EDUCATOR EXTERNSHIP PROGRAM

Applications Due: May 15, 2017

ONE-WEEK EDUCATOR EXTERNSHIP PROGRAM

This exciting program will create partnerships among workforce, industry and education to develop an effective workforce system by allowing this select group of educators to make the connection between academic skills and the workplace.

Middle and high school educators will have an opportunity to engage in activities through an externship in a particular industry and learn how classroom content can be applied in the real world.

The externship will provide the skill sets required for a given industry, and educators can then inform, educate, and guide students to industries that match their skill sets.

All externship participants **MUST** attend the opening and closing sessions on Monday & Friday for assigned externship week.
